

## Grateful at Thanksgiving

Each November, Texans pause to be thankful for the blessings in their lives and the people who are most important to them.

At TALHI, we too are grateful – to be part of the Texas family, and for the opportunity the state provides our members to support Texans every day of the year.

During this season of reflection and gratitude, we take particular pride in our continuous commitment to offering Texans and their families the ability to **protect the people and things that matter the most.**

From the **\$610 billion** that life insurers contribute to the Texas economy to the **\$17.6 billion** paid out in annuity and life insurance benefits to Texas families in 2023 alone, we are steadfast in our commitment to providing stability to our state and protection to its citizens.

Whether it's financial security throughout a lifetime or peace of mind during challenging times, we will always be there. From our companies and our families, we wish you and yours a **happy, safe, and blessed Thanksgiving.**
