

KEEPING OUR PROMISE TO PROTECT TEXAS FAMILIES

As we wrap up 2024, we at TALHI are reflecting on this past year and beyond. **We're proud of the role life insurers have played in giving Texas families peace of mind when life throws them curveballs.** Life insurers worked hard this year, as they do each year, to ensure that families and individuals had coverage that fit their unique situations — their obligations, their concerns, their life stage, their budget, and more.

In 2023, life insurers paid **\$133 billion** to beneficiaries of life insurance policies and **\$115 billion** to annuity holders across the country. In Texas, life insurers paid an average of **\$128 million** in life insurance benefits, annuities, and other payments to Texans each day.

Life insurers' impact in Texas goes beyond those payouts, however. **Investments help fund Texas schools, hospitals, affordable housing, infrastructure, and more.** They also fuel the economy by providing business and agricultural loans as well as providing hundreds of thousands of jobs to Texans.

LIFE INSURANCE

Offers security and peace of mind during difficult times

RETIREMENT SAVINGS & PERSONAL PENSIONS

Offer critical income for a long and healthy retirement

DISABILITY INSURANCE

Provides income when work is no longer possible

SUPPLEMENTAL BENEFITS

Fill gaps to cover individuals' unique needs

We sincerely hope that by honoring our promise to protect Texans this year, and every year, we have provided comfort and peace to families across the Lone Star State, during both joyous and difficult seasons.

Happy holidays from all of us, and best wishes for a prosperous 2025.

HAPPY
Holidays
